### WHAT WE WOULD LIKE TO SEE.

The salaries of our justices of the  
peace restored to the original sum  
fixed by the organic act.

Some activity among local business  
men anent the approaching meeting of  
the National Negro Business League.

The St. Joseph, Mo., Spectator tarin  
its guns on the common enemy and  
cease attacks on members of our race.

Less truckling and temporizing on  
the part of our race newspapers in  
connection with the access of hatred  
and prejudice now being poured out  
on our heads all over the country.

More patronage given to the Cap-  
ital Shoe Store of this city, the only  
one owned and run by colored men.

More confidence reposed in and re-  
cognition given to our professional  
men, especially of the law.

Fewer race papers and more encour-  
agement given to those which stand  
the test of "the survival of the fit-  
test."

Closer proof reading and more typ-  
ographical excellence in race papers.

An early conference of our best cit-  
izens in the District to provide for an  
orderly and dignified method of se-  
lecting delegates to the next National  
Republican convention.

More of our young men actively in-  
terested in churches, benevolent soci-  
eties, and other organizations for mu-  
tual help, which after all is self help.

Some representatives of the race  
appointed to honorable positions in  
the Rural Free Delivery office, now  
that their arch enemy, Machen, has  
come to grief.

More colored men like Alfred H. T.  
Walker, who recognizes the dignity of  
labor, even in the humblest of occupa-  
tions.

Our business men patronized all  
around as well as our physicians are.

More Department clerks with pro-  
fessional or technical education ex-  
hibit the nerve to resign and enter  
practice where the race needs them.

More certifications of colored eligi-  
bles from the Civil Service Commis-  
sion and more appointments of those  
certified.

More good-salaried Government em-  
ployees investing in real estate.

The S. Coleridge Taylor Society  
kept intact and more brilliant work  
done next season.

The Orpheus Club brought to life  
and activity, or the absorption of its  
talented members into the ranks of  
the Amphions.

Bohemian Girl presented here about  
Christmas by our own well-known  
wealth of talent and no imported so-  
loists.

A hearty reception given to the new  
minister of the Metropolitan A. M. E.  
Church.

### WHAT IS BLACK-NO MORE?

About four years ago a clever chem-  
ist, trained in the New York College  
of Pharmacy, while experimenting in  
his laboratory, made the astonishing  
discovery that he had at last found a  
combination of substances that would  
decolorize the pigment of the skin and  
make it a pure white.

His discovery acts on the black cells  
of pigment by breaking them up. Na-  
ture immediately rebuilds them and  
the action of Black-No-More causes the  
cells to become constantly lighter and  
finally pure white, thus making the  
skin white.

This is done without any possibility  
of injury.

Black-No-More will solve the "Race  
Problem" by turning black skin white.  
It is not necessary to wait a hundred  
years. It can be done here and now.  
There is no need whatever to question  
his because anyone can test and prove  
the matter for himself.

It never has failed.

It can not fail.  
The price of Black-No-More is \$2  
which is very low considering the  
wonderful work it does. It will be  
sent by express prepaid to any address  
on receipt of the price.

## GOOD HOMES FOR LITTLE MONEY.

The low round-trip homeseekers'  
rates in the northwest, via the North-  
ern Pacific Railway, have attracted  
many thousands. These rates will be  
continued, on the first and third Tues-  
days of July, August and September,  
so that other thousands may yet take  
advantage of them and enjoy a trip  
through the Northwest.

The Northern Pacific runs through  
the heart of this region and reaches  
nearly every important city and town,  
and almost every valley of conse-  
quence in that territory.

Use your vacation in making an in-  
spection of this land and pick out a  
nice home.

Great variety of climate, soil and  
elevation is found and everybody can  
be satisfied. Irrigated or non-irrigat-  
ed lands, timber, mineral, and pasture  
lands are obtainable.

Write us what you want and for  
particulars as to rates, etc., and we  
will try and help you.
